

DUNELAND LANDSCAPE LLC

Organic Lawn Care

Keep your turf green...naturally

For companies that want the ultimate in natural lawn and landscape care, we offer TruNatural®. Our 100% natural, organic fertilizer safely promotes a green, healthy lawn. This natural solution helps improve turf density, which can help discourage weeds from ever growing.

TruNatural® The **TruNatural®** program includes:

- TruNatural® 100% Natural organic fertilizer applications, specially formulated to provide deep, rich color, healthy roots and controlled growth
- Regular lawn inspections to evaluate results, address your feedback and adjust the plan as needed
- Periodic soil testing to monitor soil nutrient and organic matter levels
- Optional aeration and overseeding services
- Optional no-cost Targeted Lawn Care® applications to reduce existing broadleaf weeds (using either conventional or new low impact weed control products)

Unhealthy turf

Healthy turf
